Please give us a brief description of your business.

Front Page Media Group provides photography and videography solutions that document meaningful construction projects and events. We capture and share the essence of your hard work across several multi-media platforms which now include aerial and drone services or "UAV" with 4K video capture capabilities. We are the one company that can solve any and all of your communications needs. Marketing materials, insurance photos, social media, website content, vip visits, aerial images, company editorials and commercials are just a few ways we add value to your projects, events and company.

How is your business changing the world?

We are one of the few companies that is dedicated to promoting and growing leaders in heavy civil projects in the construction industry. Bridges, tunnels, hydroelectric dams, light rail, wind and solar, are all fall in our scope of professional images.

Tell us some interesting facts about you or your company.

- We hold the largest photo archive of the Lansdowne Park Redevelopment in Ottawa.
- We have served as Chair for the National Capital Heavy Construction Association's AGM for 4 years.
- Front Page Media Group is currently 100% solar powered.

What about environmental sustainability inspires you?

Efficiency has always been a goal of ours. Doing things better, while protecting our environment for future generations, needs to be high on our priority list.

What's your favourite emerging trend related to green energy/sustainability that will change our lives?

I am continually amazed by Elon Musk's thoughts on electric cars, solar roofs, and tunnel boring.

What's one green technology invention you wish you'd thought of?

Solar Shingles. I think this will eventually become one of the fastest growing green technologies of all time.

What does your company aim to accomplish in the next five years?

We are currently working on documenting construction progress of the Almonte hydrodam. Over the next 5 years we hope to add a large number of new green projects to our portfolio.

How has SMARTNet Alliance helped your business so far?

SMARTNet has provided us with new business and clients. At the 2017 Green Energy Doors Open in Ottawa, Front Page Media Group announced that it will be 100% solar powered. Leon Switzer will be one of North America's only solar powered professional photographers.
